## Ein erster Eindruck

At the entrance of Puig de Ros these modern houses with small garden and private swimming pool are built. A total of 16 semi-detached houses with an internal area of approximately 160 square meters (80 square meters per floor) are being built. The plots are between 300 and 330 square meters. Each house has 3 or 4 bedrooms, 3 bathrooms with private swimming pool and a garden of over 200 square meters. Each house has two parking spaces. The houses have different orientations on with plenty of sun that provides natural light throughout the day. This is used to enable the production of hot water with the help of thermal solar panels on the roof. Each house has its own 500-liter drinking water tank for emergencies. Various kitchen layouts are available depending on taste and needs. Likewise, it is possible to choose from several options for the interior layout. A virtual tour is available for this property.
