Alles zum Standort

Colico is located in the upper part of Lake Como, situated at an elevation of 218 meters above sea level, with a population of about 8,020. The town is a lake resort with good accommodation facilities and is very busy during the summer season. Viably located in a strategic area, as the meeting point of roads such as the SS 36 linking Milan and Brianza with Lario and Valchiavenna, and the SS 38 Stelvio leading to Bormio and Livigno as far as Switzerland. The town overlooks the lake and is characterized by a long promenade that runs along the lakefront, and the beach, a summer meeting point for all major water activities, including a sailing and kitesurfing school, as well as a soccer field and tennis court. Of particular importance is the Marina located a few meters from the property complex, with about 200 berths available. Characteristic in the Colico landscape are the four montecchi (Montecchio nord, sud, del forte di Fuentes and Piona- Olgiasca), or small hills that rise at the lake above the alluvial deposits of the Inganna and Perlino conoids.
