## All about the location

Earth pyramids, Oberwielenbacher "Talile", nature park Rieserferner-Ahrn, the stay in Percha is determined by nature. An impressive 2,200 meters of altitude difference would be if you were to visit the entire municipal area in Percha. It stretches from the green floodplains of the Rienz River to the peaks of the mighty Rieserferner Group. In between, the hamlets of Aschbach, Litschbach and Wielenberg spread out on the slopes, plus in the valley basin, along the Puster road, Nasen and the main village of Percha Dorf. Below and above them, characteristically, are Unterwielenbach and Oberwielenbach in the valley of the same name. A little further up is Platten, known for its beautiful hiking trails and its earth pyramids. They tell a story that goes back thousands of years, with their earth pillars of loamy sand and the capstone above that seems as if the next storm could carry it away. Due to erosion, the earth pyramids are subject to constant change, a glimpse of which can be seen from the viewing platform, a 45-minute trip from Platten. Popular hiking destinations on the mountain also include the Oberwielenbach Valley in the Rieserferner-Ahrn Nature Park, the Rammelstein and the Hochnall as well as the Gönneralm, one of the most popular alpine pastures in South Tyrol, which can be combined with a visit to the earth pyramids. In the valley, on the other hand, the Pusterbike bike path winds past Percha towards Valdaora and Dobbiaco, while in the other direction you can reach Dietenheim on foot or by bus, where the well-known South Tyrolean Museum of Folklore is located. In winter, the Ried gondola in Percha is one of the four places between Val Pusteria and Val Badia from which Plan de Corones is easily accessible. Up there, on Bruneck's local mountain, about 120 km of perfect slopes await skiers and snowboarders. Another winter adventure is offered by the toboggan run Lercheralm near the earth pyramids. In Percha you always come back to this natural phenomenon.
