A first impression

The Lugano Sunshine Villas project: The exceptionally beautiful nature of the site, located on one of the sunniest banks of the Lugano plain, from where one can enjoy an unobstructed view of the hills, the city and the lake, distinguishes this project. The design idea results from this special piece of land, ideally located between the city center and the unspoiled nature of the surrounding woods, which exudes a special charm. The building is divided into two volumes, each with an exposure of over 70 linear meters, opening to the south, southwest, to the lake and to the generous hills at the foot of the foothills of the Alps. The image of this place favors green spaces that present themselves as a new natural park, offering a delicate dialogue between nature and new spaces that expand without obstacles in an almost pristine landscape. All habitats are kissed by the sun from sunrise to sunset. The "Sunshine Project" consists of the construction of 2 exclusive villas, nestled in a private park of over 7000 m and can also be used as a second home.
