All about the location

San Giuliano Terme is a town located in the province of Pisa, Tuscany, Italy, just 10km from the Galileo Galilei International Airport near the Tyrrhenian coast, surrounded by beautiful countryside protected to the north by hills, and set halfway between the famous and historic art cities of Pisa and Lucca. Moreover, because of its location, San Giuliano Terme is easily accessible via Pisa airport and the main regional roads, giving it an ideal starting point for exploring western Tuscany. San Giuliano has ancient origins, dating back to Roman times, and is known worldwide for its hot springs, which have been used since Roman times for curative and thermal purposes. No less important are the proximity of the Migliarino San Rossore Massaciuccoli Natural Park perfect for hiking, biking or horseback riding and the town of Torre del Lago Puccini: famous for being the summer home of composer Giacomo Puccini where every summer on the lake, there are festivals and performances dedicated to his music. As in all of Tuscany, this area is also renowned for its authentic cuisine, which includes dishes such as ribollita (bread and vegetable soup), Florentine steak alla fiorentina game, and desserts such as torta coi bischeri. On the hills that protect San Giuliano Terme from the cold winds coming from the north are ancient villages and farmhouses scattered over a wide area, much sought after by investors, for the breathtaking views ranging from the Apuan Alps to the sea and for the possibility of living in close contact with nature while remaining close to the city. Moreover, in the hills the climate is typically Mediterranean, characterized by hot, dry summers and mild, wet winters.
