All about the location

News about Lajatico The municipality of Lajatico, established in 1776, as we shall see later, lies between the valleys of the Era to the east, the Sterza to the west and the Ragone to the south, and is undoubtedly one of the most beautiful and historically rich in the entire Val d'Era. The municipality of Lajatico, in its full Tuscan character, has a total elevation range of 578 meters and is easily accessible from Volterra, San Gimignano, Siena, Pisa and Florence. The Territory covers 72 sq. km, in which human presence is limited to a few settlements developed in the valley bottom along the road to Volterra such as La Sterza and Villaggio San Giovanni, also known as Bocioni. There are numerous farms among which Spedaletto stands out. Very interesting from an environmental and cultural-historical point of view is Orciatico. It seems that the first inhabitant of Lajatico was a ... Mammoth (*elephas planifrons*). The elephant from the Vallata was discovered in 1933 and recovered in the following year Lajatico has become an international tourist destination in recent years. In fact, it is the birthplace of the famous tenor Andrea Bocelli. Every year in July, in the evocative setting of the Teatro del Silenzio, a concert is held in which Bocelli himself participates along with international artists. The Theater of Silence and the Road of Silence The Theater of Silence constitutes a unique work of its kind, a natural theater carved out of the beautiful setting of the hills of Lajatico, a small scenic jewel of the Upper Era Valley. The setting is not drapery, stucco, or pictures, but a small lake surrounded by travertine blocks in the center of which works by internationally renowned artists stand out from year to year.
