A first impression

Excellent rustic estate built in 1950 and renovated in 2018 near Binissalem. The reconstruction was carried out with a focus on bio-construction, using materials such as natural stone, clay, insulation made from plant fibers, natural plasters, and non-toxic paints, thus creating a healthy and ecological environment for both residents and the surroundings. The approximately 140 m² house is set on a large plot of 11,500 m². Spread over two floors, it has two bedrooms, one bathroom, a large living-dining room, and a kitchen that share an open space, as well as an additional room used as a dressing room and storage. Outside we find a charming terrace, wonderful garden and pool area to enjoy the warm summer days. The property guarantees energy independence thanks to a system of solar panels and lithium batteries, while its water autonomy is ensured through water cisterns and a license for the excavation of a well. Additionally, it has a gray water recycling system through a plant-based purification channel and a storage lagoon. Surrounded by mature and young fruit trees, as well as recently planted forest trees and plants, the estate offers an oasis of tranquility just a 15-minute walk from the lively village of Binissalem. This charming village offers a wide range of services, including train transportation, health center, schools, supermarkets, and more, as well as a welcoming and vibrant local community.
