## Una primera impresión

Fascinating side-by-side ground-floor solution within the historic hamlet of Brendola Alta. In a wonderful place with breathtaking views of vineyards and fields, the house is in the center of the small medieval village perched on the hill of Brendola, on the top of which dominates the castle. This home the subject of a wise and recent renovation, is positioned at the top in terms of energy efficiency. With class A4, gas-free it uses exclusively renewable sources, even during the night, thanks to a storage battery. Arranged on several levels that take advantage of the slope of the hill on which the village is located, the house consists of a beautiful dining room at the entrance, overlooking the open kitchen located on a slightly staggered floor. From all the rooms there is a wonderful panoramic view thanks to the many windows and the large sliding window that leads from the kitchen to the outdoor patio. This place, represents during the beautiful season, now increasingly stretched, an additional environment where to spend time in harmony with the surrounding nature and the breathtaking landscape. On the upper floor are two double bedrooms, one of which has a loft that can be used as a study, or additional guest sleeping space, and two bathrooms, both with windows and equipped respectively with one shower and one bathtub. A beautiful fenced garden accessible from the panoramic patio terrace completes the amenities of an undoubtedly exclusive home.
