Una primera impresión

A total of ten high-quality new apartments with great views over the South Tyrolean mountain landscape are being built in Tiers al Catinaccio. The garden apartment on the ground floor has two bedrooms with balcony door to the terrace/garden, two bathrooms and a living area consisting of dining kitchen and living room. The outdoor areas of the apartments have been oriented so that you can fully enjoy the wonderful view, and they have been designed in different directions so that you can enjoy a pronounced degree of privacy even outdoors. The high quality of construction is reflected in every corner. The photos of the property show an existing reference property of the developer, which was recently completed and can also be viewed. One cellar per apartment (approx. 6-8 m²) is included in the sales price. Garage parking spaces or garage boxes are available from € 27,500 to € 35,500 per unit.

Detalles de los servicios

High quality fittings and incomparable construction quality.

Since the builder has already built a multi-family house in the village of Tires, it is possible to see the building that has already been completed.

The building will be built according to the Climate House A Nature standard.

Compared to neighboring villages like Siusi, Castelrotto and Fiè allo Sciliar, Tires still has a high development potential.

Recently, a new cable car has been built in Tires, connecting the village with the hiking and skiing area Carezza. This redevelopment will have a positive effect on the development of property prices in the village. In addition, most of the newly built apartments have to be conventional and therefore cannot be used as vacation homes, which guarantees a high value for the new unconventional apartments.
