## Une première impression

From Pisa by way of the historic tree-lined Brenner road, which crosses the countryside in the direction of Lucca, past the small train station of San Giuliano Terme, one reaches a small rural hamlet, where the building proposed for sale is located. The house, recently built, while being made entirely of wood in compliance with the requirements of green building, is inspired by the Tuscan farmhouse, unlike which by virtue of the new technologies available has provided large glass openings overlooking the garden, allowing from inside, to admire the unquestionable beauty of the countryside, where plants, flowers and the sky, are the protagonists of a picture never the same. The building has two floors and is surrounded by a well-kept garden equipped with an irrigation system, full of ornamental plants, where it is possible to realize in compliance with the regulations, a private swimming pool and a shading structure to protect cars. The ground floor is characterized by a bright open space, used as a living-dining room, with the modern open kitchen, next to which we find the wooden staircase connecting with the upper floor, while a hallway separates the rest of the floor from the master bedroom with walk-in closets and a large bathroom with shower, on the first floor instead we find four bedrooms two of which with private bathroom, and a shared bathroom for the remaining bedrooms. Internally, the horizontal structure in exposed wood and the excellent finishes such as floors, porcelain stoneware, wooden floors in the rooms, the wall tiles in the bathrooms with Venetian stucco, pvc window frames with certified double glazing, embellish this unique dwelling.
