The new villa to be built is on two levels including access to the roof area and will be built in Torri del Benaco. On the first floor at garden level are the garage parking spaces, cellar and storage rooms as well as bedrooms and bathrooms. A connecting staircase to the upper floor connects the sleeping area with the living and dining area above, as well as the possible additional bedrooms and bathrooms. The pool area is located on the upper floor and is accessed by a large terrace. Outside there is also a staircase to the first floor, allowing flexible connection of the floors. The layout can also be changed by arrangement. The hillside location guarantees a breathtaking view of the lake, this also formed the main criterion for the design and orientation of all rooms.
