Az els? benyomás

This unique project presents two new village houses in a quiet neighbourhood of Santa Maria. The focus is on open, light-flooded spaces with high wooden beamed ceilings and large glass doors with metal frames, ensuring the highest quality standards for an unrivalled living experience. The properties are spread over three floors and offer a private garage, a charming garden with pool and several terraces with views of the Serra de Tramuntana. The skilful combination of architecture, landscape and interior design creates a harmonious balance throughout the house. The ground floor houses an inviting entrance area with direct access to the open-plan kitchen and dining area. From here, the room opens directly onto the outside. On the first floor there are three bedrooms and two bathrooms. The master bedroom with en-suite bathroom offers breathtaking views of the Tramuntana mountains and a private balcony. The highlight is revealed on the second floor with a spacious living area complete with fireplace and a 40m² roof terrace with unique panoramic views of the mountains. The result of this extraordinary project manifests itself in the perfect fusion of traditional Mallorcan architecture and modern design. The outdoor area impresses with an inviting patio with green areas, a cosy outdoor dining area and a pool. The total area is 254m², divided into 190m² for the interior and 64m² for the exterior. Further features include mains electricity and water, stone floors throughout, wooden floors in the bedrooms, underfloor heating and air conditioning.
